

Position Vacant – Garden Designer.

Blerick Tree Farm is currently expanding its team of Garden Designers and consultants. We require a motivated and dynamic person/s who we can subcontract work to. They must have an ABN. This position would suit a student who is already in the advanced stages of studying in relevant fields or a person with prior experience in garden design and a good plant knowledge. This person may also already have their own garden design/landscaping business. If the suitable applicant does not have an ABN Blerick Tree Farm is willing to offer assistance in the process of starting a new business and acquiring an ABN. The suitable person must be willing to adopt the systems and software that we currently have in place, however, there is a large degree of autonomy in terms of dealing with the client and the design outcomes. The suitable candidate must be well presented and be willing to present to the client as a member of the Blerick Tree Farm team, even if they already have their own business. This will involve wearing a Blerick Tree Farm uniform.

In house training will be provided to the suitable applicant in the use of the software and our systems, however the applicant must have a good knowledge of design concepts and plant knowledge and be able to complete designs independently, once software training has been completed.

Currently Blerick Tree Farm Design services, Gippsland, Melbourne metropolitan and mornington Peninsula and Yarra Valley. It is probably advantageous to the suitable candidate to live in reasonable close proximity to Blerick Tree Farm, however this should not be a limiting factor when considering whether to apply or not. As Blerick Tree Farm grows this position has the potential to grow.

Remuneration:

The suitable candidate will invoice Blerick Tree Farm for a set percentage of the quoted price to the client.

The suitable candidate will also be eligible for a percentage of tree sales, generated through their consultation and design

Job Tasks will involve:

Contacting referred client to make an appointment

Visiting client on their site

Taking notes/Photos etc that will enable the design to be completed at your site

Completing the design

Meeting with the client at Blerick Tree Farm to present the design and sign off on the process

Equipment required:

- Digital camera
- Own Car
- Computer minimum specs:- 1 GHz CPU (1.8 GHz or faster recommended), Windows XP or Vista, 512 MB System RAM, Video card (A DirectX 9-compatible video card is required)with 128 MB Video RAM
- Email and Internet access
- Mobile phone with 3G coverage, better or equivalent. Must be able to have reception in marginal reception areas.
- Business with ABN (assistance can be provided to set this up)

Note: All designs will have shared ownership between Blerick Tree Farm and the designer.

To apply for position, please send a brief email introducing yourself, your background and experience, and your contact details. We will contact you to discuss the position further. No application by phone please.
